

Ambu® aScope™ RhinoLaryngo

Lower Cost, Better Performance than Reusables

Researchers at SUNY Upstate Medical University published an independent study in Laryngoscope Investigative Otolaryngology comparing the cost and performance of reusable rhinolaryngoscopes to Ambu aScope RhinoLaryngo.

	Comparison of Cost Per Use	
	Reusable	aScope
Equipment	\$50	\$172
Repairs	\$161	X
Reprocessing	\$27	X
Total	\$238	\$172

Using aScope RhinoLaryngo saved \$67 per procedure compared to reusables

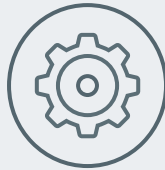

Performance Comparison

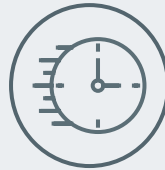

Physicians rated aScope RhinoLaryngo **better** on:

Overall Performance

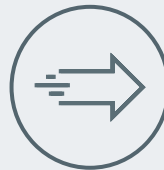

Setup

Convenience

Physicians rated aScope RhinoLaryngo **equally** on:

Maneuverability

Ergonomics

Physicians rated aScope RhinoLaryngo as having better overall performance than reusables
